

HENRIETTA'S BOOK OF SPELLS

QUICK-START GUIDE

for Atari ST/Commodore AMIGA

Henrietta's Book of Spells

Welcome to HENRIETTA'S BOOK OF SPELLS. We know you are anxious to get started, but please spare just a few minutes to study these notes. It could save time and frustration later!

Before you start - README

Every Scetlander program supplied on disc has a README file which may contain tips, suggestions ideas and information on changes etc made after the documentation was printed.

Check this file before running the program or making a working copy.

DO IT THIS WAY:

ST

- 1 When at GEM, insert your Scetlander disc in drive <A>.
- 2 Double click on <A>.
- 3 Double click on <README>.
- 4 Click on 'SHOW' to view document or 'PRINT' to print it out

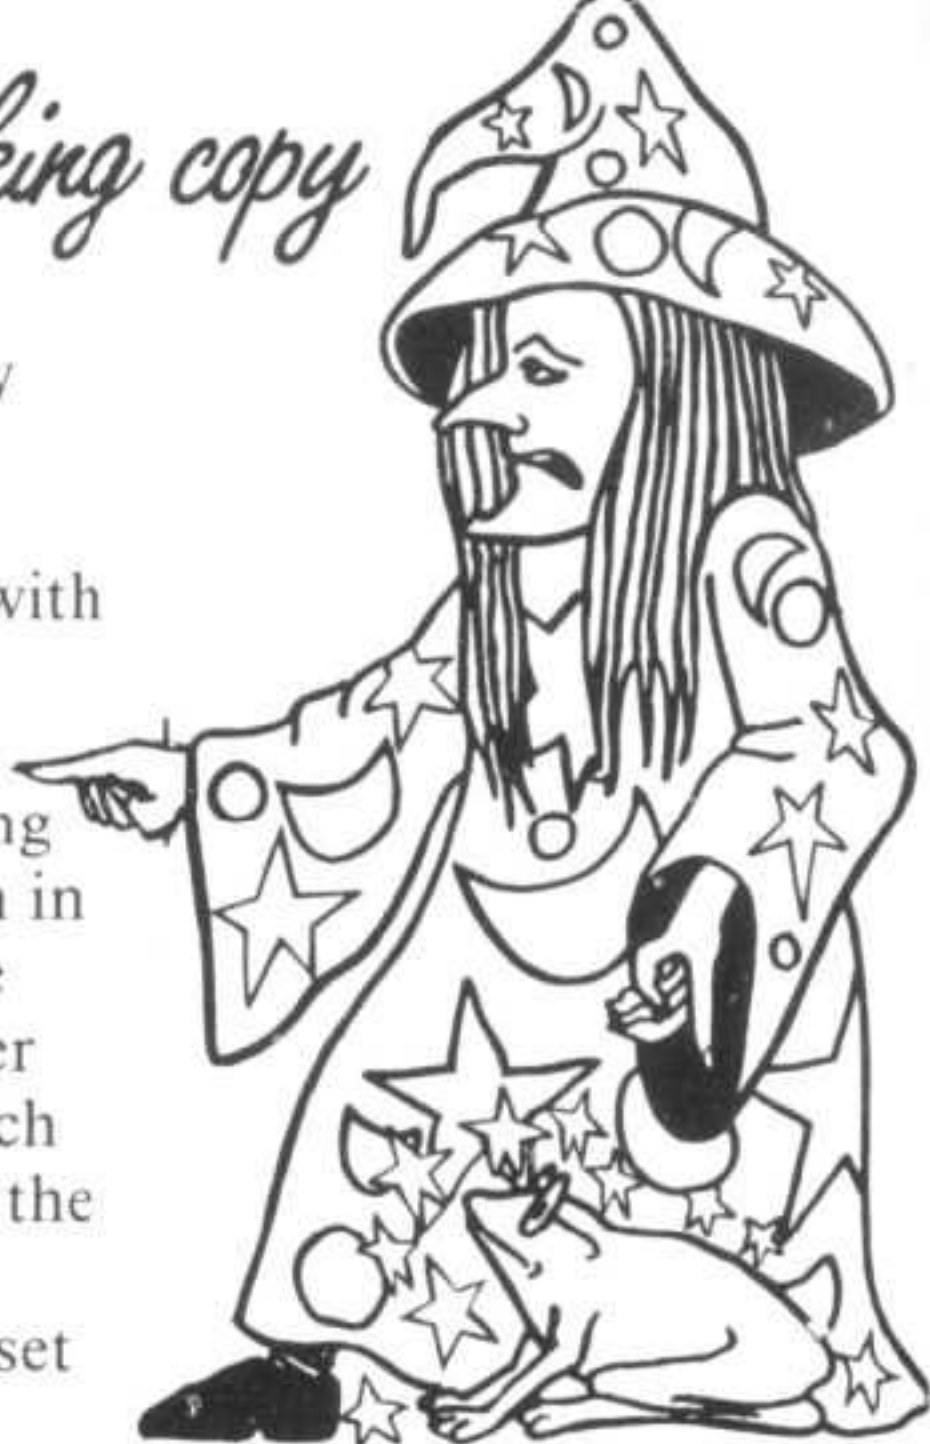

AMIGA

- 1 Load the program following the instructions below.
- 2 Press <F1> at the loading screen to view the README file.

Making a working copy

Your program is copy protected in a special way to allow you maximum flexibility with the minimum of fuss.

You can make working copies of the program in the usual way - please refer to your computer manual. However, each time you want to run the program, you must follow the procedure set out below.

Loading instructions

Warning: Before using this program for the first time, we strongly recommend that you study **Before you start - README.**

Loading:

- 1 Insert your master disc into the disc drive.
- 2 Reset your computer and the program will load. When the Validation Screen appears, it will ask you to enter a password which the computer has chosen at random from your Parent/Teacher Guide.
- 3 Locate the password, type it and then press <Enter>. The program will now run.

NB: When searching for a password, count only words and headings printed in black. Disregard all coloured words.

Parent/Teacher Section

To access this section, press <Ctrl-t> at the **Control Screen**. You can then view and alter a wide range of parameters by following on-screen instructions. Click on the "Help" button for help at any stage.

NOTE: You can return to the **Control Screen** at any time by repeatedly pressing <Esc>
